STATEMENT UNDER 37 C.F.R. § 1.56**

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In accordance with the duty of disclosure imposed by 37 C.F.R. § 1.56 to inform the Patent and Trademark Office of all references coming to the attention of each individual associated with the filing or prosecution of the subject application, which are or may be material to the patentability of any claim of the application, Attorneys for Applicants hereby direct the Examiner's attention to the references AQ through BH listed on the attached revised form PTO 1449. A copy of each of the references is enclosed herewith.

Identification of the listed references is not to be construed an admission of Applicants or Attorneys for Applicants that such references are available as "prior art" against the subject application. Consequently, Attorneys for Applicants respectfully decline to use form PTO-1449, since this form identifies all of the references cited therein as "Prior Art."

As an alternative, submitted herewith are several pages of a "revised form PTO 1449" entitled

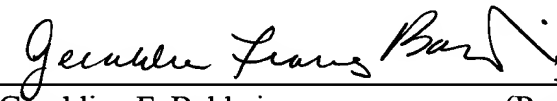

"List of References Cited" instead of "List of Prior Art Cited."

Applicants respectfully requests that the Examiner review the foregoing references and that the references be made of record in the file history of the application.

Pursuant to 37 C.F.R. §1.97, because this Information Disclosure Statement is being submitted after the mailing date of the first Office Action on the merits, a fee of **\$240.00** is believed to be due. If the Patent and Trademark Office determines otherwise, please charge any required fee to Pennie & Edmonds LLP Deposit Account No. 16-1150. A duplicate of this sheet is enclosed for accounting purposes.

Respectfully submitted,
